PROPERTY DESCRIPTION

Exquisite home at this price range! You're probably not going to find anything this exceptional in the mid \$90Ks. Two-story, impressive home with huge Cathedral ceilings, upgrades everywhere to include premium fixtures and even granite counters. Driving to the property, you'll see right away that care has been lavished on the property. There is a large tree up front that provides a lot of shade and helps to keep the home cool even during the hottest days. Walking in, you'll be impressed with the overall feel of elegance of this home. The wood flooring, two-toned designer paint, and fireplace let you know, loud and clear: THIS IS NICE. The living room is spacious and open to the dining area, which leads to the kitchen—which has been remodeled extensively. Granite counters, a new black gas stove and built in microwave make this a cooks' dream. The brushed nickel fixtures and faucet continue the elegant look throughout the home. The Master suite is located on the first floor, and it's a big room with plenty of room for large beds and all of the dressers you'd want. Upstairs, the rooms give plenty of space, and offer a separation from the master for added privacy. The home didn't have the A/C on when I arrived, and it still remained surprisingly cool even upstairs despite the hot weather. Outside, the home has a privacy fenced back yard and is in a quiet area. This place is very, very nice. Come on out and take a look. We think you'll agree! This is how you find this wonderful home:

From the Expressway, exit Willowsprings Road and Head South to a Left on Corona, which becomes Bermuda. Take a Left on West, and this home is on the Right and looks just great with that magnificent tree up front!
