PROPERTY DESCRIPTION

Huge 2 story with two living areas, located on a non-through street with low traffic, no rear neighbors for added privacy, and an enormous lot surrounded by a new privacy fence! And to top it off—this is at a very low price. 3 bedrooms, 2 living and 2 dining areas along with a separate large utility room make this a lot of room for daily life. Walking in, you'll notice how light, open and airy the home is. Elliptical arches, designer paint, Hunter ceiling fans all combine to make this a very elegant home. The kitchen has been updated to include new countertops, a new kitchen faucet and an 8 stainless steel sink. There is a half-bath downstairs, with the main living and dining areas—perfect for entertaining. Upstairs, you'll find the massive master, a 2nd living/game room area, and two more bedrooms. The bathrooms include all new satin nickel faucets. The lot is enormous, privacy fenced, and with sprinklers front and back. There is a nice large covered patio overlooking it. This place is very nice for the price, it's now vacant and ready to be shown and occupied. You'll be real happy to see this one!

Here's how to get there:

Hwy 190, Exit WS Young South, Right on Stan Schleuter Loop, Right on Regency, Left on Emerald. Home is on the left and looks Awesome!
